Education

•R.V Institute of Management and technology ,Banglore	2023-2027
Bachelor of Engineering in Computer Science	CGPA/Percentage: 8.05
Sidheshwar Public School ,Gurgaon	2022
Board of Intermediate Education, Haryana	CGPA/Percentage: 86%
Sidheshwar Public School,Gurgaon	2020
Board of Secondary Education, Haryana	CGPA/Percentage: 92%

Experience

•VOIS	12-09-2025-22-10-2025
AI/ML and Data Analysis Intern	Online
Analyze and interpret conversational data using Large Language Models (LLMs) to derive insights and build simple AI-driven solutions.	
Assist in developing, testing, and documenting NLP-based mini projects under mentor guidance from VOIS.	
•ServiceNow	05-09-2025-30-10-2025
System Administrator	Online
Analyse and administer the ServiceNow platform (including configuration, workflows and automation) under virtual instructor-led training.	
Complete tasks, projects and certification-prep modules aiming for the ServiceNow Certified System Administrator credential (or equivalent) via the internship	

Personal Projects

•AI Mental Health Chatbot	10-05-2025
The AI-Powered Mental Health Chatbot is a C++ prototype that detects user emotions using keyword matching and responds empathetically based on their mental state. It uses a Finite State Machine (FSM) to manage multi-turn conversations, offering greetings, listening support, comfort, or therapist-style advice. The chatbot reads responses from text files, making it easy to expand and customize. It aims to provide emotional support and demonstrate practical use of string matching, file handling, and algorithmic design.	
Inventory Recommendation System using Machine Learning	20-11-2025
This project implements an Inventory Recommendation System using Machine Learning techniques (RFM analysis, TF-IDF, and clustering algorithms) to provide personalized product suggestions to users. The system processes and analyzes user, product, and transaction data using Python, Pandas, Scikit-learn, and Excel-based datasets. The outcome is a smart, data-driven recommendation model that enhances inventory management efficiency and customer personalization for e-commerce platforms.	

Technical Skills and Interests

Languages: C++, Python, Java (basic)
Developer Tools: Figma ,Git, GitHub, VS Code, MySQL
Frameworks: React.js, JavaScript, HTML, CSS, Tailwind CSS ,Express.js, Node.js, Pandas , Numpy , Sklearn,
Cloud/Databases: AWS , MySql , MongoDB
Soft Skills: Problem-Solving, Team Collaboration, Communication, Time Management, Adaptability
Coursework:
Areas of Interest: Ukulele, Movies

Positions of Responsibility

•Volunteered in RoboFiesta, the college technical fest, as part of the Public Relations (PR) team, managing event promotion and outreach.	three months
---	--------------

Achievements

Attended IDE Bootcamp 2024 at NIT Surathkal , a 5-day intensive . workshop focused on innovation, design, and entrepreneurship.	23-09-2024
Participated in intra-college coding and design competitions .	02-12-2024
